I am interested in taking the following class(es) and understand the opportunity to attend is on a "space-available basis", and that the cost is \$20.00 per quarter plus any applicable fees for no more than 6 credits. The determination as to whether space is available will be made on the morning of the 6th day of classes (4th day Summer Quarter). I understand I may attend the class session until that time. If the instructor determines there is space available, I must register and pay the fees. Community Service and self-support classes are not eligible for fee waiver.
