

OPCOM RETREAT 2014  
September 8-9, 2014  
Agenda

The 2014 OPCOM Retreat will offer a chance for us to understand the nature of leadership and change, and why change is absolute critical to improve our ability to evolve and grow in the future. We will have an opportunity to look at data, and explore the demographic changes in WA State, particularly mirroring the demographics shift Shoreline. During our time together in plenary and breakout discussions, we will look at the dimension of diversity, diversity of thought and best practices for Pedagogy-actionable empathy. Through engaging discussion, we will have the opportunity to self-reflect, evaluate and improve ourselves by understanding further topics such as: Foundation theory, micro- aggressions, agency and aspiration, servant leadership and much more.
